

MID-MARKET (FIRSTRX)

HSA Preventive Drug List

Accord™ Formulary

Introduction

Some prescription benefit plans include an HSA Preventive Drug coverage feature which allows certain medications to be obtained at zero or low cost before the deductible is satisfied.

This benefit is provided in accordance with U.S. Department of the Treasury and Internal Revenue Service (IRS) guidance for plans with Health Spending Accounts (HSAs) and qualified High Deductible Health Plans (HDHPs).

A list of preventive medications listed by therapeutic category begins on the next page.

Preventive Therapy

Preventive medications help protect against or manage a medical condition. They may provide prenatal care, prevent osteoporosis, or reduce risk of blood clots, stroke, and heart disease. Taking preventive medications as directed by your doctor can help avoid serious health problems and may mean fewer doctor visits and hospitalizations.

Brand and Generic Products

To get the most from your benefits, ask your doctor if there's a generic medication that's right for you. Please verify with your plan if a generic drug must be tried before filling a brand version of a drug.

Please note that medications must be covered by your plan to be eligible for the preventive medication program; not all strengths and dosages will be covered.

Questions?

If you have questions, need to check the cost of a medication, or would like additional information on the HSA Preventive Drug List, please contact customer service at the toll-free member phone number on your ID card.

KEY:

Generics: *lowercase italic*; Brands: ALL CAPITAL LETTERS

*This list is subject to change and does not define coverage.
Refer to plan documents to determine coverage. Visit web.PrimeTherapeutics.com for current list.*
